

Residential

Residential

Project: Anchor at West Hall
Client: GB Building Solutions
Tonnage: 390 tonnes
Location: West Byfleet

This is a development of 3 buildings for a residential care facility. The buildings are each designed with curving roof profiles which is then covered in a green roof. The buildings are situated near to existing period buildings and have been designed with the use of natural finishes to blend with the surroundings.

Two buildings were designed with the same orientation and the third as an opposite hand. Following completion of the frame Snashall Steel were then commissioned to fabricate and erect the feature entrance canopy which is a free standing curved canopy on circular columns designed to be out of plumb and self supporting.
